

## Operating Instructions for: Ultimate Fuzz Octave

The UFO is a 60's style fuzz-warm and saturated with foot switch selectable octave up and switchable vintage/modern fuzz.

The UFO sounds best when ran first in the signal chain (before any other effects).

Never run the UFO thru an effects loop.

Input-Instrument in. Unplug when not in use to conserve battery life.

Out-Out to amp

-9VDC jack-for use with -(Negative) center, 9VDC, filtered, and regulated power supply.

Fuzz control-Varies the amount of fuzz.

Level control-Varies the amount of output.

The UFO has a lot of output capable of driving multiple pedals or any amplifier input.

Tone control-Varies the amount of treble.

8VA-Turns on one octave up.

On/Off-True bypass of effect. (Note: a small pop may occur when effect is switched on/off. This is normal and is a trait associated with true bypass.)

Vin/Mod: Vintage-Classic 60's fuzz sound

Modern-More output, bass and fuzz.

There may be a slight delay in sound when switching from the Vintage to the Modern sound.
